Table 16

STATUS OF STATE'S BOND POOL OR FORFEITURE RECLAMATION FUND (For States with alternative bonding systems)		
	July 1, 1991	June 30, 1992
Number of participating permits		
Acreage of participating permits		
Fund balance	$	$
Fund income	N/A	$
Expenditures	N/A	$
Funds restricted to use on a specific site (to be returned if permittee reclaims site)	$	$
Reclamation liabilities[1]		
Number of sites		
Acres		
Estimated cost of reclamation	$	$
Portion of estimated reclamation cost covered by site-restricted bonds	$	$

[1] Includes cost of reclaiming all sites for which the State has issued final bond forfeiture orders.

Table 17

LANDS UNSUITABLE PETITIONS	
Petitions seeking to designate lands as unsuitable for mining	
Decisions pending as of July 1, 1991.....	____
Petitions received during EY 1992.....	____
Petitions approved during EY 1992.....	____
Petitions rejected during EY 1992.....	____
Petitions approved in part/rejected in part during EY 1992..	____
Decisions pending as of June 30, 1992.....	____
Petitions seeking to terminate previous lands unsuitable designation	
Decisions pending as of July 1, 1991.....	____
Petitions received during EY 1992.....	____
Petitions approved during EY 1992.....	____
Petitions rejected during EY 1992.....	____
Petitions approved in part/rejected in part during EY 1992..	____
Decisions pending as of June 30, 1992.....	____

Table 18

[STATE/TRIBAL] STAFFING (Fulltime equivalents at end of evaluation year)			
Function	EY 1990	EY 1991	EY 1992
Abandoned mine land reclamation program (total)			
Regulatory program (total)[1]			
Permit review[1]			
Inspection			
Other (general administration, fiscal, personnel, etc.)			
Interagency personnel assignments			
Totals			

[1] Does not include supervisory or clerical personnel.

Table 19

FUNDS GRANTED TO [STATE/TRIBE] BY OSM (Millions of dollars)												
Type of grant	Federal funds requested by [State/Tribe]			Federal funds awarded			Funds deobligated			Federal funding as percentage of total program cost		
	1990	1991	1992	1990	1991	1992	1990	1991	1992	1990	1991	1992
Administration and enforcement												
Abandoned mine land reclamation [1]												
Small operator assistance												
Other [itemize]												
Totals												

[1] Includes administrative and construction grants and cooperative agreements.

Table 20

STATUS OF AMLR FUNDS AWARDED TO [STATE/TRIBE] (Millions of dollars)						
Year of award	Funds approved by OSM	Cumlative obligations by State/ Tribe	Cumlative outlays by State/ Tribe	Funds deobligated by State/Tribe (cumulative)	Funds remaining available for obligation	Percent of grant period lapsed
Administrative grants						
EY 81-90 EY 91 EY 92						
Subtotals						
Construction grants, exclusive of State emergency and noncoal project funding						
EY 81-90 EY 91 EY 92						
Subtotals						
State emergency project funding						
EY 81-90 EY 91 EY 92						
Subtotals						
Noncoal project funding						
EY 81-90 EY 91 EY 92						
Subtotals						
Cooperative agreements						
All EY						
TOTALS						

Table 21

AML RECLAMATION ACHIEVEMENTS DURING EVALUATION PERIOD				
Project benefit		AMLIS[1] keyword(s)	Coal mining-related	Noncoal mining-related
Mine openings closed	(number)	MO, P, VO		
Landslides stabilized	(acres)	DS		
Subsidence-prone areas stabilized and surface deformations repaired	(acres)	S, SP		
Hazardous impoundments and other water bodies modified or removed	(number)	HWB, DI		
Highwalls modified to minimize safety hazards	(linear feet)	DH		
Highwalls eliminated	(linear feet)	H		
Mine equipment, structures and facilities removed	(sites)	HEF, EF		
Mine refuse piles and slurry ponds removed or stabilized	(acres)	DPE, GO, SL		
Industrial and residential trash dumps and waste disposal sites cleaned up	(acres)	IRW, DP		
Silt-clogged stream channels rehabilitated	(miles)	CS		
Polluted water supplies and swimming holes improved in quality or replaced	(number)	PWAI, PWHC		
Underground mine or coal seam fires controlled	(acres)	UMF		
Surface refuse fires extinguished	(acres)	SB		
Underground mine gas problems mitigated	(number)	GHE		
Mine spoils, pits, benches and related disturbed areas regraded and/or revegetated	(acres)	CSL, BE, HR, PI, SA		
Mine drainage quality improved	(gal./min.)	WA		
Other environmental benefits	(itemize)	O		
Public facilities constructed or enhanced	(itemize)	P5		
Public land developed	(itemize)	P6		
Total acreage reclaimed by all projects		--
