TABLE 22

ABANDONED MINE LAND RECLAMATION NEEDS AND ACCOMPLISHMENTS SINCE PROGRAM APPROVAL

Problem nature	Unit	Coal-related problems				Noncoal-related problems	
		Abatement			Total	Abatement	
		Funded	Unfunded	Completed		Funded	Completed
Priority 1 & 2 (Protection of public health, safety, and general welfare)							
Clogged streams	Miles	_	_	_	0	_	_
Clogged stream lands	Acres	_	_	_	0	_	_
Dangerous highwalls	Lin. Feet	_	_	_	0	_	_
Dangerous impoundments	Count	_	_	_	0	_	_
Dangerous piles & embankments	Acres	_	_	_	0	_	_
Dangerous slides	Acres	_	_	_	0	_	_
Gases: hazardous/explosive	Count	_	_	_	0	_	_
Underground mine fires	Acres	_	_	_	0	_	_
Hazardous equip. & facilities	Count	_	_	_	0	_	_
Hazardous water bodies	Count	_	_	_	0	_	_
Industrial/residential waste	Acres	_	_	_	0	_	_
Portals	Count	_	_	_	0	_	_
Polluted water: agric. & indust.	Count	_	_	_	0	_	_
Polluted water: human consumption	Count	_	_	_	0	_	_
Subsidence	Acres	_	_	_	0	_	_
Surface burning	Acres	_	_	_	0	_	_
Vertical opening	Count	_	_	_	0	_	_
Priority 3 (Environmental restoration)							
Spoil areas	Acres	_	_	_	0	_	_
Benches	Acres	_	_	_	0	_	_
Pits	Acres	_	_	_	0	_	_
Gob piles	Acres	_	_	_	0	_	_
Slurry ponds	Acres	_	_	_	0	_	_
Haul roads	Acres	_	_	_	0	_	_
Mine openings	Count	_	_	_	0	_	_
Slumps	Acres	_	_	_	0	_	_
Highwalls	Lin. Feet	_	_	_	0	_	_
Equipment/facilities	Count	_	_	_	0	_	_
Industrial/residential waste	Acres	_	_	_	0	_	_
Water problems	Gal./min.	_	_	_	0	_	_
Other	---	_	_	_	0	_	_

Note: All data in this table are taken from the Abandoned Mine Land Inventory System (AMLIS). Since information concerning noncoal-related problems and accomplishments did not have to be included in AMLIS until November 26, 1991, the table may not reflect all noncoal-related accomplishments.

APPENDIX B

OSM Cyclical Review Schedule for Evaluating State Program Elements and Subelements

[Instructions: Behind this title page, attach a copy of the cyclical review schedule for the 3-year review cycle that includes the evaluation year covered by this report. Please note that this appendix will thus contain essentially the same schedule for three consecutive years. The only revisions will consist of workplan modifications made during the evaluation year. **Since EY 1994 marks the end of a 3-year evaluation cycle, the cyclical review schedule appended to the EY 1994 annual reports will cover EY 1992 through EY 1994.**]

APPENDIX C

[State/Tribal] Comments on Report

[Instructions:

- Insert either "State" or "Tribal" to complete the title of this appendix. Do not substitute the name of the State or Tribe.

- Behind this title page, attach the most recent comments received from the State or Tribe. If the comments incorporate an earlier letter by reference, attach that letter as well. If no comments are received, provide a notation to that effect.]

U·S·DEPARTMENT OF THE INTERIOR OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT DIRECTIVES SYSTEM	Subject Number: REG-8 Transmittal Number: 786 Date: 6/30/93

Subject: Oversight of State Regulatory and State and Tribal Abandoned Mine Land Reclamation Programs

Approval: /S/ Hand Tripton **Title:** Director

OFFICIAL FILE COPY

1. PURPOSE. This directive establishes policies, procedures and responsibilities for conducting oversight of State regulatory programs and State and Tribal abandoned mine land reclamation (AMLR) programs. This directive applies to all Office of Surface Mining Reclamation and Enforcement (OSM) organizational units and personnel involved in oversight of State regulatory programs and State and Tribal AMLR programs during Evaluation Year (EY) 1994 (July 1, 1993-June 30, 1994). It does not affect oversight workplans prepared for EY 1994, but it shall be used when preparing workplans for EY 1995.

2. SUMMARY OF CHANGES. Since this directive was last revised on July 8, 1992, the following changes have been made:

a. Dates have been modified throughout the directive and appendix as necessary to reflect the extension of this guidance through the 1994 evaluation year.

b. Part 4.a. of the directive has been revised to clarify that the Director or his or her designee can establish national priority review topics and standardized nationwide element- or subelement-specific evaluation methodologies when desired; they need not be set forth through the directive process.

c. Parts 4.a.(2)(f) and 5.b. of the directive and Part II of the appendix have been revised to delete the requirement for quarterly workplan progress reports since this information is already included in the monthly reports prepared by the Field Office Directors for the Assistant Director, Field Operations.

d. Part 5.c. of the directive has been removed, deleting the requirement that copies of Tables 2 and 6-10 be submitted to the Assistant Director, Reclamation and Regulatory Policy.

e. Part 5.d. (now 5.b.) of the directive has been revised to extend the time allotted to the Field Office Director for preparation of the annual report from 30 days to 45 days after the close of the evaluation year.

f. Part 6 of the directive has been revised to reflect prior changes to Directives INE-29 and REG-8.
