NOTICE OF WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specific conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve violation of copyright law.

THE DANGERS OF SOLAR STORMS

28 THAT WHICH GIVES POWER CAN ALSO TAKE IT AWAY

Were a massive solar storm to strike Earth, the impacts could rival or exceed the worst natural disasters humans have ever faced. Superstorm Sandy provided a brief glimpse of a massive power loss and elucidated our vulnerabilities. What can be done to prevent a catastrophic power loss?

DRINKING TOILET WATER

THE SCIENCE (AND PSYCHOLOGY) OF WASTEWATER RECYCLING 38

Even knowing that recycled wastewater, once treated, may be cleaner than what comes out of most faucets, many people are disgusted by the idea of drinking it. But as climate change and population growth strain freshwater resources, using recycled wastewater is likely to become more common around the world.

PHOTOGRAPHER:
STEPHEN SETTEDUCATI
PONTIAC PLANT DEMOLITION,
PONTIAC, MICH., USA

SetteDucati, director of marketing and media, MCM Management Corp., says he knew his photo could be "potentially fantastic" as he climbed onto the ledge of a building overlooking the demolition yards of an old Pontiac assembly plant. He calls the resulting photo, "Sunset of Another Day of Wrecking."

**ON THE COVER**

PHOTOGRAPHER:
DAVID LLOYD

SAN DIEGO REGIONAL BEACH SAND PROJECT, SAN DIEGO, CALIF., USA

Lloyd scouted sites on the ground first to learn the schedules and activities. The sand was dredged offshore, conveyed via boat and pumped to the beach in 45-minute bursts every four hours, so timing an aerial shot was tricky. He had the pilot dip the wing while he shot with a 300-mm lens for a tight composition.

FEATURE**The Great Shots**

Lesley R. Morris and Thomas A. Monaco
- 23 Repairing Ecological Processes to Direct Ecosystem State Changes
Thomas A. Monaco, Chris Call, Merylynn C. Hirsch, and Beth Fowers
- 27 Ecological Principles Underpinning Invasive Plant Management Tools and Strategies
Jeremy J. James, Roger L. Sheley, and Brenda S. Smith
- 30 Linking Ecological Principles to Tools and Strategies in an EBIPM Program
Joseph M. DiTomaso and Brenda S. Smith
- 35 Proactive EBIPM: Establishing Weed Prevention Areas
Corey V. Ransom and Ralph E. Whitesides
- 39 Ecological Restoration Using EBIPM
Jane Mangold
- 44 Adaptive Management in EBIPM: A Key to Success in Invasive Plant Management
A. Joshua Leffler and Roger L. Sheley
- 48 The Economics of EBIPM on Great Basin Rangelands
Kimberly Rollins and Michael H. Taylor
- 53 Weather Variability and Adaptive Management for Rangeland Restoration
Stuart P. Hardegree, Jeanne M. Schneider, and Corey A. Moffet
- 57 Advancing EBIPM Through Education
Chris Call, Brenda S. Smith, Halley Kartchner, Ryan Steineckert, and Jason Tuckness

SRM Annual Meeting 2013

- 64 Mesas to Marshes: A Look at the Unexpectedly Diverse Ecoregions of Oklahoma
Blayr Gourley and Cynthia N. Park
- 66 Gems of Oklahoma: 2013 SRM Meeting Technical Tours
Joshua Ketch and Blayr Gourley

Departments

- 70 Listening to the Land
- 72 Browsing the Literature
- 74 Highlights, *Rangeland Ecology & Management*, November 2012

Bottom right: Annual and perennial grass research near Burns, OR, USA. Photo by Brett Bingham, USDA-ARS, Burns, OR, USA.

SOIL SCIENCE

An Interdisciplinary Approach to Soils Research

NOVEMBER 2012

CONTENTS

Vol. 177 No. 11

- EFFECTS OF ORGANIC DAIRY MANURE ON SOIL PHOSPHATASE ACTIVITY, AVAILABLE SOIL PHOSPHORUS, AND GROWTH OF SORGHUM-SUDANGRASS 629
Heidi M. Waldrip, Zhongqi He, and Timothy S. Griffin
- PHOSPHORUS LOSS AND FORMS IN RUNOFF FROM WATERSHEDS IN THE GREAT PLAINS 638
Moustafa A. Elrashidi, Larry T. West, and Naraine Persaud
- A COMPARISON OF SCREENING TESTS FOR SOIL Pb 650
Sarah E. Wharton, Hannah A. Shayler, Henry M. Spliethoff, Lydia G. Marquez-Bravo, Lisa Ribaud, and Murray B. McBride
- EFFECTS OF SYNTHETIC CHELATORS AND LOW-MOLECULAR-WEIGHT ORGANIC ACIDS ON CHROMIUM, COPPER, AND ARSENIC UPTAKE AND TRANSLOCATION IN MAIZE (*ZEA MAYS* L.) 655
Yaser A. Almaroai, Adel R. A. Usman, Mahtab Ahmad, Kwon-Rae Kim, Deok Hyun Moon, Sang Soo Lee, and Yong Sik Ok
- NOAH-LSM SIMULATION ON VARIOUS SOIL TEXTURES IN TROPICAL SEMI-ARID REGIONS 664
R. T. Waghmare, T. Dharmaraj, and M. N. Patil
- USING WAVELET TRANSFORM OF HYPERSPECTRAL REFLECTANCE DATA FOR EXTRACTING SPECTRAL FEATURES OF SOIL ORGANIC CARBON AND NITROGEN 674
Hongfei Yang, Yurong Qian, Feng Yang, Jianlong Li, and Weimin Ju
