### **NOTICE OF WARNING CONCERNING COPYRIGHT RESTRICTIONS**

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specific conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve violation of copyright law.

## GAMING THE SYSTEM IN THE CASPIAN SEA

### 24 CAN GAME THEORY SOLVE A DECADES-OLD DISPUTE?

Few if any international water-rights disputes have proven as unmanageable as that over the Caspian, a massive body of water that stretches over hundreds of thousands of square kilometers in Central Asia. How can the application of economic approaches, such as game theory, help advance the discussion past the current stalemate?

**THE WILD EAST OF WYOMING: BONE WARS, OUTLAW HIDEOUTS & CRACK CLIMBING 40**

Western Wyoming, with Yellowstone and Grand Tetons national parks, may be more famous, but Eastern Wyoming — home to dinosaur bone wars, famous outlaw hideouts and the nation's first national monument — boasts a captivating mix of Wild West history and geologic marvels.

**Mary Caperton Morton**

**VIEWS**

**8 A COMMENT  
 GEOETHICS: WHAT IS IT AND WHY SHOULD I CARE?**

The new field of geoethics deals with the ethical, social and cultural implications of geological research and practice, including everything from natural hazard "prediction" to resource exploration and production. The hope is that by discussing geoethical issues, this growing movement will contribute to a better stewardship of our planet.

**Max Wyss**

**64 GEOLOGIC COLUMN  
 THE CASE OF TUZO WILSON AND THE LOST GLOTTAL STOP**

The author ties together the Scottish accent, Hawaii, France's Massif Central and a meeting with geology celebrity J. Tuzo Wilson — the pioneer of plate tectonics theory for whom the Wilson Cycle is named.

### Nordic Mining 2013

#### Nordic Mining and Exploration: Facing New Challenges

While the Nordic countries have not been immune from the current slowdown in exploration activity, there is still plenty going on as companies continue with project developments. ....28

#### Nordic Equipment for Worldwide Markets

Equipment manufacturers and service suppliers from the Nordic countries play a major role in global exploration, mining and metallurgy ....38

Euromining Show Provides Nordic Equipment Focus .....66

### Here to Serve You

Network components are becoming as important to mining enterprise success as haul trucks, loaders and other traditional 'big iron' .....70

#### Developing the Drive System for the World's Largest Haul Truck

System designers discuss the drive technology BelAZ will use to propel its 500-ton truck .....76

#### The Fertilizer Hits the Fan

The potash industry has undergone a shakeup that has rattled the industry and threatened the suspension of some world-class projects, putting a question mark on the viability of African producers .....78

#### Synthetic Rope: Innovative Solution to Knotty Cable-safety and Wear Problems

Making the case for modern synthetic over traditional steel rope in mining applications .....80

### Bulking Up

Conveyor system technology evolves to meet the changing bulk materials handling needs of the industry .....82

### Special Report: Mining in Mexico

All eyes are on newly elected President Enrique Peña Nieto, eagerly and anxiously awaiting his stance on mining the sector .....87

## LEADING DEVELOPMENTS

Anglo American Withdraws from Pebble Project.....4

First-half Mining M&A Down 31%, Year-on-year .....4

The Situation in Zimbabwe .....5

Glencore Xstrata Reviews Progress since May 2013 Merger .....6

Romanian Parliamentary Committee Studying Roşia Montană Development....8

## AROUND THE WORLD

U.S. & Canada: Cigar Lake Start Delayed .....10

Latin America: Hochschild Receives Final Construction Permit for Inmaculada ....14

Australia/Oceania: Australian Election Results Favor Mining Industry.....16

Africa: Kibali Pours First Gold Ahead of Schedule.....18

Asia: Centerra Announces Potential Restructuring of Kumtor Ownership .....20

Exploration Roundup: New Zealand Seeking PGM Minerals Exploration Tenders....22

This month E&M J presents a comprehensive report on the investment climate in Mexico in light of a looming new mining tax. On the cover: Goldcorp's Peñasquito mill reached an average production level of 105,000 mt/d during the second quarter of 2013. (Photo courtesy of Goldcorp)

**REGULAR PAPERS**

A framework for combining social impact assessment and risk assessment <i>Hossein Mahmoudi, Ortwin Renn, Frank Vanclay, Volker Hoffmann and Ezatollah Karami</i>	1
A qualitative method proposal to improve environmental impact assessment <i>Javier Toro, Ignacio Requena, Oscar Duarte and Montserrat Zamorano</i>	9
Consistent quantification of climate impacts due to biogenic carbon storage across a range of bio-product systems <i>Geoffrey Guest, Ryan M. Bright, Francesco Cherubini and Anders H. Strømman</i>	21
A critique of the performance of EIA within the offshore oil and gas sector <i>Adam Barker and Carys Jones</i>	31
Social Impact Management Plans: Innovation in corporate and public policy <i>Daniel M. Franks and Frank Vanclay</i>	40
Introduction of a method for presenting health-based impacts of the emission from products, based on emission measurements of materials used in manufacturing of the products <i>Rikke Bramming Jørgensen</i>	49
The application of strategic environmental assessment in a non-mandatory context: Regional transport planning in New Zealand <i>Paul McGimpsey and Richard K. Morgan</i>	56
Conceptualising the effectiveness of impact assessment processes <i>Chaunjit Chanchitpricha and Alan Bond</i>	65
Framework for assessing impacts of pile-driving noise from offshore wind farm construction on a harbour seal population <i>Paul M. Thompson, Gordon D. Hastie, Jeremy Nedwell, Richard Barham, Kate L. Brookes, Line S. Cordes, Helen Bailey and Nancy McLean</i>	73
A critical comparison of ten disposable cup LCAs <i>Eugenie van der Harst and José Potting</i>	86
The role of Health Impact Assessment in the setting of air quality standards: An Australian perspective <i>Jeffery Spickett, Dianne Katscherian and Patrick Harris</i>	97
Public participation in environmental impact assessment: why, who and how? <i>Anne N. Glucker, Peter P.J. Driessen, Arend Kolhoff and Hens A.C. Runhaar</i>	104
Stakeholder participation in health impact assessment: A multicultural approach <i>Maya Negev, Nadav Davidovitch, Yaakov Garb and Alon Tal</i>	112
Do indicators influence communication in SEA? — Experience from the Chinese practice <i>Jingjing Gao, Lone Kørnøv and Per Christensen</i>	121
Monitoring: The missing piece A critique of NEPA monitoring <i>Ronald Bjorkland</i>	129
Disappearing rivers — The limits of environmental assessment for hydropower in India <i>Alexander Erlewein</i>	135
Avoiding climate change uncertainties in Strategic Environmental Assessment <i>Sanne Vammen Larsen, Lone Kørnøv and Patrick Driscoll</i>	144

## GOVERNING

10.2013

OSM Library

OCT 17 2013

Denver, Colorado

An art installation this summer transformed an empty lot in Houston into an outdoor living room.

## FEATURES

## DISRUPTIVE TECHNOLOGIES

- 26** SOCIAL SCIENCE  
Facebook and other social media networks are upending the way Chicago fights gang violence.  
*By John Buntin*
- 34** COLLABORATION NATION  
Technology is changing the way citizens engage with local government.  
*By Rob Gurwitt*
- 40** WHAT'S MINE IS YOURS  
Can cities learn to let people share?  
*By J.B. Wogan*
- 46** WIDE OPEN  
Will the most sprawling, least dense, most automobile-dependent major city in America ever change?  
*By Ryan Holeywell*
- 54** NEW WORKERS, NEW RULES  
The Great Recession was hard on government and millennials. Now, the two have to make up.  
*By Mike Maciag*

## DEPARTMENTS

- 4 Publisher's Desk
- 6 Letters

### OBSERVER

- 9 Old Enough to Vote?  
One city is allowing 16-year-olds to vote in local elections.
- 10 Fiscal Fights  
Some states want to reduce the role of their treasurers
- 11 Online Lending  
Public libraries are letting members stream movies and music.

### POLITICS + POLICY

- 14 Assessments  
Recent school cheating shows how little we know about testing.
- 16 Dispatch  
Digital news struggles to fill the void left by statehouse reporters.
- 18 Potomac Chronicle  
With education reform, ideology trumps consensus these days.
- 19 FedWatch  
Who decides if married gay couples get public assistance?
- 20 Health  
Tuberculosis shows up again.
- 22 Green Government  
Despite a federal ban, states are plowing ahead with hemp.
- 24 Economic Engines  
When is public works the right solution?
- 25 Urban Notebook  
Looking to cut costs, cities consider merging police and fire.

### PROBLEM SOLVER

- 58 Behind the Numbers  
The Recovery Act initially saved teaching jobs. So where are they now?
- 60 Smart Management  
Earmarking a designated stream of cash may not always be the best way to fund a project.
- 62 Better Government  
Government must come up with a better budget process.
- 64 Tech Talk  
A new version of a popular Boston app seeks to reward citizens for reporting problems.
- 66 Public Money  
In light of recent bankruptcies, muni market issuers need to change the way they tell their story.
- 68 Last Look  
The old Tiger Stadium in Detroit has gone to the dogs.

# Land and Water

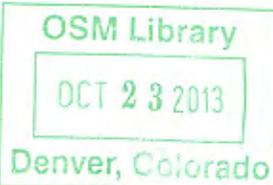

THE MAGAZINE OF NATURAL RESOURCE MANAGEMENT AND RESTORATION

Volume 57, Number 5

September/October 2013

## DEPARTMENTS

- 6 Tell It Like It Is  
53 Equip-Board  
54 Advertiser's Index

## FEATURES

### LOW IMPACT DEVELOPMENT

- 8 **Birnamwood Drive Showcases LID-Based Roadway**  
Birnamwood Drive in Houston, Texas, becomes a success story with the use of an economics based approach, while providing numerous water quality benefits.  
*by David Batts & Robert Adair*

### SEDIMENT CONTROL

- 14 **Wattle Application on Linear Projects**  
Wattles are being utilized more frequently on linear construction projects for erosion control than in the past, notably by the North Carolina DOT for highway construction projects.  
*by Ramey Blackburn, PE, CFESC, CPSWD*

### STORMWATER MANAGEMENT

- 19 **Pervious Asphalt Parking Lot Gets PICP Makeover**  
When an LID porous asphalt parking lot begins deteriorating, a PICP system is installed, without damage to the bio-swale materials or disruption to the original stormwater capacity.  
*by Charles Taylor*

### WETLANDS

- 23 **Transformation of an Industrial Brownfield into an Ecological Buffer**  
In an effort to transform a 44-acre brownfields property into what was later named the Refuge Gateway, coastal wetland and shoreline restoration projects took place, as well as habitat restoration and overall site cleanup.  
*by Kelly N. Rice, PWS, Allison Krueger & John H. Hartig*

### AQUATIC PLANTS

- 29 **Aquatic Plants: Your Pond's Underwater Salad Bar**  
The fall season is a great time to gain understanding of the water-based plants in and around your pond, so that you can make the best decisions concerning them.  
*by Bob Lusk*

### WATER MANAGEMENT

- 33 **HDPE Irrigation Pipeline Runs 21 Miles to Protect Environment**  
In order to replace open canals and ditches, protect from infiltrating salt in groundwater, and irrigate 53,000 acres of farmland, a 21.2 mile-long line of HDPE pipe was installed.

### LAND RESTORATION

- 36 **Prairie and Meadow Restoration: Asking Nature to Work for You**  
Prairie restoration is becoming commonplace, whether it is on CRP lands, commercial or urban residential settings, they come with a different management regime than expected.  
*by Thomas Munn*

### WATER QUALITY

- 40 **Capitol Hill Water Quality Project: Swale on Yale**  
To provide water quality enhancement for a currently untreated, 450-acre, portion of urban runoff, flows are diverted out of the current system into a treatment system that includes a swirl separator and swales.  
*by David E. Schwartz, PE, LEED-AP*

### FLOOD CONTROL

- 48 **Danish Alps Recreation Area and Kramper Lake**  
Soil and water conservation problems in the Pigeon and Jones Creek watershed initiated a comprehensive erosion and flood control plan, which included creation of 19 flood control/grade stabilization structures.  
*by Kelly Traver*

You can now read Land and Water Magazine online, visit [www.landandwater.com](http://www.landandwater.com)

## ABOUT THE COVER

Coastal habitat restoration design and implementation at the Refuge Gateway property of the Detroit River International Wildlife Refuge. Shoreline restoration involved the removal of concrete, rebar, bricks, and various remnant manufacturing debris; and the bioengineered restoration of native emergent and floodplain communities with herbaceous, forested, and woody habitat structure components. To read about it, turn to page 23. Photo Credit: J. Jourdan

# Rangeland Ecology & Management

A Journal of the Society for Range Management

VOLUME 66

NUMBER 5

SEPTEMBER 2013

## Table of Contents

### *Invited Syntheses*

- 493 Climate Change and North American Rangelands: Trends, Projections, and Implications  
*H. Wayne Polley, David D. Briske, Jack A. Morgan, Klaus Wolter, Derek W. Bailey, and Joel R. Brown*
- 512 Climate Change and North American Rangelands: Assessment of Mitigation and Adaptation Strategies  
*Linda A. Joyce, David D. Briske, Joel R. Brown, H. Wayne Polley, Bruce A. McCarl, and Derek W. Bailey*

### *Research Articles*

- 529 Contrasting Preference for Grassland Landscapes Among Population Groups in the Central and Southern Great Plains  
*Terrie A. Becerra, David M. Engle, R. Dwayne Elmore, and Samuel D. Fuhlendorf*
- 539 Wolf (*Canis lupus*) Predation Impacts on Livestock Production: Direct Effects, Indirect Effects, and Implications for Compensation Ratios  
*Jordan R. Steele, Benjamin S. Rashford, Thomas K. Foulke, John A. Tanaka, and David T. Taylor*
- 545 Tick Abundance and Levels of Infestation on Cattle in Response to Patch Burning  
*Victoria J. Polito, Kristen A. Baum, Mark E. Payton, Susan E. Little, Samuel D. Fuhlendorf, and Mason V. Reichard*
- 553 Fire and Nitrogen Effects on Purple Threeawn (*Aristida purpurea*) Abundance in Northern Mixed-Grass Prairie Old Fields  
*Dustin J. Strong, Lance T. Vermeire, and Amy C. Ganguli*
- 561 Grazing Method Effect on Topographical Vegetation Characteristics and Livestock Performance in the Nebraska Sandhills  
*Mitchell B. Stephenson, Walter H. Schacht, Jerry D. Volesky, Kent M. Eskridge, Eric M. Mousel, and Dennis Bauer*
- 570 The Drought Calculator: Decision Support Tool for Predicting Forage Growth During Drought  
*Gale H. Dunn, Megan Gutwein, Timothy R. Green, Ashley Menger, and Jeff Printz*
- 579 Linking Phenology and Biomass Productivity in South Dakota Mixed-Grass Prairie  
*Matthew Rigge, Alexander Smart, Bruce Wylie, Tagir Gilmanov, and Patricia Johnson*
- 588 Herbicide-Assisted Restoration of Great Basin Sagebrush Steppe Infested With Medusahead and Downy Brome  
*Guy B. Kyser, Robert G. Wilson, Jimin Zhang, and Joseph M. DiTomaso*
- 597 Plant Establishment in Masticated Utah Juniper Woodlands  
*Kert R. Young, Bruce A. Roundy, and Dennis L. Eggett*

Front Cover Photograph: Mean computed temperatures for mid-21st century relative to the 20th century in response to average emission scenarios (from Coupled Model Intercomparison Project 3). The graphic was developed by Jon Eischeid who works with Klaus Wolter at the University of Colorado.

*W. Marshall Frasier and Tim Steffens*
- 22 Optimum Stocking Rate, Monitoring, and Flexibility  
*J. Alfonso Ortega-S., Steven D. Lukefahr, and Fred C. Bryant*
- 28 Adaptive Grazing Management for Recovery  
*Tim Steffens, Grady Grissom, Matt Barnes, Fred Provenza, and Roy Roath*
- 35 Case Study: Adaptive Grazing Management at Rancho Largo Cattle Company  
*Grady Grissom and Tim Steffens*
- 45 Grazing Management Can Improve Livestock Distribution  
*Brien E. Norton, Matt Barnes, and Richard Teague*
- 52 Multiple-Paddock Grazing Distributes Utilization Across Heterogeneous Mountain Landscapes  
*Matt Barnes and Jim Howell*
- 62 Stocking Density Affects Diet Selection  
*Doug Peterson, Mark Brownlee, and Tim Kelley*

## View Points

- 67 Short-Duration Grazing in Retrospect—A Practitioner's Experience  
*Sid Goodloe*
- 72 The Savory Method Can Not Green Deserts or Reverse Climate Change  
*David D. Briske, Brandon T. Bestelmeyer, Joel R. Brown, Samuel D. Fuhlendorf, and H. Wayne Polley*

## From Dusty Trails to Waning Wetlands – 67th SRM Annual Meeting & Trade Show

- 75 Trade-Offs Among Ecosystem Services and Disservices on a Florida Ranch  
*Hilary M. Swain, Elizabeth H. Boughton, Patrick J. Bohlen, and Laurent O'Gene Lollis*
- 88 Acquiring Water Services From Northern Everglades Ranchlands  
*Leonard Shabman, Sarah Lynch, and Elizabeth H. Boughton*
- 93 Developing Sources of Native Grass Seed for Revegetation in Florida  
*Mary J. Williams, Janet Grabowski, and Brandee Williams*
- 98 Use of Rotational Stocking in Combination With Cultural Practices for Smutgrass Control—A Florida Case Study  
*Joseph H. Walter, Yoana C. Newman, Sharon F. Gamble, Dennis M. Mudge, Pete Deal, Matheus Baseggio, and Ashley Fluke*

## Departments

- 104 Listening to the Land
- 106 Browsing the Literature
- 109 Highlights, *Rangeland Ecology & Management*, September 2013

**Front Cover:** A herd of grass-fed cattle from Blue Range Ranch, herded by George Whitten in a strategic grazing plan on the Baca National Wildlife Refuge, below the Sangre de Cristo Mountains in the San Luis Valley, CO, USA. Photo by Matt Barnes.

# SOIL SCIENCE

An Interdisciplinary Approach to Soils Research

JUNE 2013

CONTENTS

Vol. 178 No. 6

- REDUCTION OF FEASIBLE PARAMETER SPACE OF THE INVERTED SOIL HYDRAULIC PARAMETER SETS FOR KOSUGI MODEL ..... 267  
*Joseph Alexander Paul Pollacco, Paolo Nasta, José M. Soria-Ugalde, Rafael Angulo-Jaramillo, Laurent Lassabatere, Binayak P. Mohanty, and Nunzio Romano*
- Bromus tectorum* L. INVASION: CHANGES IN SOIL PROPERTIES AND RATES OF BIOTURBATION ..... 281  
*Robert R. Blank, Tye Morgan, Charlie D. Clements, and Bruce E. Mackey*
- DESCRIPTION OF THE PHOSPHORUS SORPTION AND DESORPTION PROCESSES IN LOWLAND PEATY CLAY SOILS ..... 291  
*Oscar Frédéric Schoumans*
- AGGREGATE SHAPE AND TENSILE STRENGTH MEASUREMENT ..... 301  
*Getulio de Freitas Seben, Jr, José Eduardo Corá, Carolina Fernandes, and Rattan Lal*
- THE ROLE OF MINERALOGY IN ORGANIC MATTER STABILIZATION IN TROPICAL SOILS ..... 308  
*Wipawan Thaymuang, Irb Kheoruenromme, Anchalee Suddhipraharn, and Donald L. Sparks*
- LABORATORY LYSIMETER ANALYSIS OF NH<sub>3</sub> AND N<sub>2</sub>O EMISSIONS AND LEACHING LOSSES OF NITROGEN IN A RICE-WHEAT ROTATION SYSTEM IRRIGATED WITH NITROGEN-RICH WASTEWATER ..... 316  
*Haijun Sun, Hailin Zhang, Jiasen Wu, Peikun Jiang, and Weiming Shi*
