SUPPLEMENTARY INFORMATION:

Both the preamble to the proposed rule published on November 8, 1993 (58 FR 59334), and the preamble to the final rule advised that a revised paragraph 886.23(b) would be added to Section 886.23 which would require, at the completion of a grant, agency submission of closeout reports as specified by OSM. Specifically, paragraph 886.23(b) required submission of Form OSM-76 upon project completion. This submission was deemed necessary to comply with the requirement in section 403(c) of the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87, as amended, that on a regular basis OSM note on its inventory those projects completed under Title IV. However, paragraph 886.23(b) of the final rule language was inadvertently published without the reference to "upon project completion." The purpose of this document is to reiterate the intent of the regulation which is that Form OSM-76 and any other closeout reports be filed upon project completion, and to correct paragraph 886.23(b) to include the phrase "upon project completion."

Accordingly, the publication on February 22, 1995, of the final regulations which were the subject of FR Doc. 95-4259, is corrected as follows:

SECTION 886.23 -- [Corrected]

Paragraph 1. On page 9983, in the first column, in Section 886.23, paragraph (b), line one, the words "At the completion of each grant" is corrected to read "Upon project completion."

Dated: May 30, 1995.

Bob Armstrong, Assistant Secretary, Land and Minerals Management.
