Corrections

ACTION: Corrections.

SUMMARY: This document corrects final rules that begin on page 62639 of the FEDERAL REGISTER of December 13, 1977, FR Doc. 77-35049.

EFFECTIVE DATE: January 19, 1978.

ADDRESS: Director, Office of Surface Mining Reclamation and Enforcement, Department of the Interior, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: Paul Reeves, 202-343-4237.

SUPPLEMENTARY INFORMATION:

Except as noted below, this document corrects typographical errors. Item 2 corrects the statement of applicability of the performance standards to new mines on Federal lands so that the operative date is the date of permit approval rather than the date operations commence. This is consistent with the applicability of the initial performance standards to new mines under State permits. Item 6 corrects a misuse of the word "length" by substituting the word "height" which correctly appeared in the proposed regulations in Section 715.15(b)(4). Item 10 deletes paragraph (j)(5) from Section 715.17. The paragraph was inadvertently retained from an early draft of the final regulations. Section 715.17(j)(4) correctly states the law with regard to exchange of Federal coal leases or fee lands in alluvial valley floors, and as noted in item 55 on page 62656 of the preamble to the final regulations, "Detailed regulations implementing the exchange provisions will be developed."
