In FR Doc. 82-21917 beginning on page 35620 in the issue of Monday, August 16, 1982, make the following correction.

On page 35627, first column, the fifth line from the bottom of the page now reading "authority is necessary for effective" should have read "authority chooses not to participate, or where OSM determines that a Federal inspection without participation by the State regulatory authority is necessary for effective".
