

MID-CONTINENT REGION TECHNOLOGY TRANSFER TEAM (MCRTTT) MEETING NOTES

<https://www.mcrcc.osmre.gov/programs/mcrtt.shtm>

Conference Call
September 19, 2018
10:00-11:00AM CST

Participants:

Angie Sherman, OSMRE MCR
Mark Stacy, Indiana
Marlene Spence, Kansas
Abby Alkire, Louisiana
Matthew Trousdale, Alabama
Jason Kuhlman, Illinois

Discussion:

- MCR states meeting in Kansas City, MO August 28-29, 2018
 - At the meeting, the question was asked if MCR could have workshops like they did in the past. At this time, MCR doesn't have the staff or funds to do this, however, it was mentioned that instead of a workshop, we could check with NTTP and set up a special training session. Will find out more information about this.
- 2018 NAAMLCP Conference – Williamsburg, VA – Sept. 9-12, 2018
 - One person on the call attended the conference and found the sessions to be very informative
- UAS Technical Chat Monthly call – sent call in information to team
- National Mine Map Repository website – checking on whether the brochure on the website is the most recent. If so, we need to replace the paper copies we have in the field offices.
- Asked the team for suggestions/ideas for FY19 calls

State Reports

Illinois:

Adopting e-permitting process

Alabama:

All documents are digital using survey123

Indiana:

Developed GIS team for AML & REG, working on unifying web mapping so there is one general map

Taking the 1st step in the e-permitting process by requesting digital formats

The next scheduled conference call will be Oct. 17, 2018, 10:00 AM CST.
