</table>

Comments: The AML Fund Collections and Allocations section shows total fee collections for coal produced in Fiscal Year 2017. The State and Tribal share allocated, which is 50% of total collections, will be the starting point for the State Share distribution on page 2. The Historic Coal funds, including 30% of total collections plus funds transferred to Historic Coal, will be distributed on page 4. Transferred funds are from collections for certified States and Tribes as calculated on page 3.

The Status of the AML Fund section shows fund balances as of November 30, 2017. As in previous years, November 30th was chosen as the cut-off date to include fee collections for coal produced in the final quarter of FY 2017.

Comments: This page presents the FY 2018 State and Tribal share distribution. The FY 2017 State/Tribal share from page 1 is broken out for each State and Tribe. Collections for certified States and Tribes are excluded from this distribution because certified States and Tribes are ineligible to receive State or Tribal share. The FY 2018 State and Tribal share distribution in the last column is rounded to the nearest dollar for each State and Tribe.

Comments: As in the past, certified states and tribes are eligible for Treasury funding equivalent to 100% of their State/Tribal share allocations. In 2018, Section 411(h)(3)(C) requires the amount of phase in funds withheld during FY 2009-2011 under section 411(h)(3)(B) be distributed equally in FY 2018 and FY2019. An additional column was added to reflect the phase-in amounts for FY 2018. The FY 2018 certified in-lieu fund distribution in the last column is rounded to the nearest dollar for each State and Tribe.

</table>

**Comments:** This page presents the distribution of the Historic Coal funds allocated and transferred for FY 2017, as shown on page 1. This represents the 30% allocation plus the amount transferred from certified States and Tribes equal to their FY 2018 Certified In Lieu distribution which includes the half the phase-in amounts withheld under during FY 2009-2011 under section 411(h)(3)(B). Pursuant to section 411(h)(4)(A) as amended by the Continuing Resolution for FY 2018, OSMRE transferred the entire State/Tribal share allocation for certified states to Historic Coal, regardless of whether the certified State/Tribe received full Certified in Lieu equivalent.

This total is distributed based on each State’s percentage of coal tonnage produced before the passage of SMCRA in 1977. OSMRE used tonnage data from OSMRE’s Environmental Impact Statement of 1980. Only States and Tribes that are uncertified and have unfunded Priority 1 & 2 problems in the AML inventory are eligible for Historic Coal funds. Each State’s individual calculated percentage is multiplied by the total historic coal funds available to calculate a potential distribution. The FY 2018 Historic Coal funds distribution in the last column is rounded to the nearest dollar for each State.

Comments: This page presents the Minimum Program Make Up funding distribution. The State and Tribal Share, Certified In Lieu, and Historic Coal distributions for each State and Tribe (calculated on pages 2-4) are added together to produce a preliminary total distribution. Only States and Tribes that are uncertified and have unfunded Priority 1&2 coal problems in the AML inventory are eligible for minimum program funding. The Minimum Program Need column shows the amount each State needs to bring total funding up to $3,000,000 or the amount of the unfunded high priority coal problems in its inventory, whichever is lower. The FY 2018 Minimum Program Make Up distribution in the last column is rounded up to the nearest dollar for each State.

*All figures above rounded to the nearest dollar.

For all figures above rounded to the nearest dollar.

Funding for Abandoned Mine Land (AML) grants come from coal receipts collected and deposited in the AML trust fund and also from general Treasury funds. These funds are distributed through a congressionally mandated formula under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). Reductions required under sequestration for fiscal year 2018 were calculated by the Office of Management and Budget in its Report to Congress on the Joint Committee Reductions for Fiscal Year 2018. The required reductions were effective on the date of the issuance of the Presidential sequestration order (pursuant to 2 USC 901 et seq.), which for fiscal year 2018 was May 23, 2017. Any new direct spending authorized by Congress after the President issues the sequestration order is not subject to sequestration for that fiscal year.
