

FISCAL YEAR 2025 GRANT DISTRIBUTION

AML Fund Collections and Allocations for FY 2024		No Data
Total AML Fee Collections for FY 2024		\$81,804,614.78
State and Tribal share (initial):		
(50% of Fee collections)		40,902,307.45
Historic Coal funds (initial):		50,242,278.43
30% of Fee collections		24,541,384.43
Transferred to Historic Coal from Certified		\$25,700,894.00
Status of AML Fund		No Data
AML UNAPPROPRIATED BALANCE AS OF 11/30/24:		
Total Receipts (FY 1977 thru FY 2024 Collections + Investment Earnings)		\$13,710,975,239.98
Total Appropriations, Mandatory Distributions and transfers to the UMWA		(10,794,797,970.27)
(FY 1977 thru FY 2024)		
Unappropriated Balance		\$2,916,177,269.71
ALLOCATION OF AML UNAPPROPRIATED BALANCE AS OF 11/30/24:		
Historic Coal Allocation		1,608,161,050.52
Federal Expenses Allocation		180,491,130.43
Reserve for UMWA Health and Retirement Funds		1,033,421,430.93
Total Federal Share Allocation		\$2,822,073,611.88
Total State Share Allocation		94,103,657.83
Total Allocation of Unappropriated Balance		\$2,916,177,269.71
<p>Comments:</p> <p>The "AML Fund Collections and Allocations for Fiscal Year (FY) 2024" section shows total fee collections for coal produced in 2024 (reduced by the fees collected in Oklahoma). The State and Tribal share allocated, which is 50% of total collections, will be the starting point State and Tribal share distribution on page 2. The Historic Coal funds include 30% of total collections plus funds transferred to Historic Coal, detailed on page 4. Transferred funds are from collections for certified States and Tribes as calculated on page 3.</p> <p>The "Status of the AML Fund" section shows fund balances as of November 30, 2024. The sequestered funds are not part of the unappropriated balance as the Federal budget authority states that these AML Funds are unavailable and require them to be tracked in a separate account.</p> <p>As in previous years, November 30th was chosen as the cut-off date to include fee collections for coal produced in the final FY 2024. These amounts are received from December 1, 2023 to November 30, 2024. To ensure that these collections are accounted for properly, the calculation of the distribution was adjusted from the Federal Fiscal Year.</p>		

FY 2025 STATE AND TRIBAL SHARE DISTRIBUTION

Comments:

This page presents the FY 2025 State and Tribal share distribution. The FY 2025 State and Tribal share from page 1 is broken out for each State and Tribe. Collections for certified States and Tribes are excluded from this distribution because certified States and Tribes are ineligible to receive State or Tribal share. The FY 2025 State and Tribal share distribution in the last column is rounded to the nearest dollar for each State and Tribe.

FY 2025 CERTIFIED IN LIEU FUNDS DISTRIBUTION

State/Tribe	Certified (Yes/No)	Certified State/Tribal Share Collections (rounded)	Certified In Lieu Fund Distribution

Comments:

This page presents the distribution of the Historic Coal funds allocated and transferred for FY 2025, as shown on page 1. This represents the 30% allocation plus the amount transferred from certified States and Tribes equal to their FY 2025 Certified In Lieu distribution. Pursuant to section 411(h)(4)(A) as amended by the Continuing Resolution for FY 2025, OSMRE transferred the entire State and Tribal share allocation for certified States to Historic Coal, regardless of whether the certified State and Tribe received full Certified In Lieu equivalent.

This total is distributed based on each State's percentage of coal tonnage produced before the passage of SMCRA in 1977. OSMRE used tonnage data from OSMRE's Environmental Impact Statement of 1980. Only States and Tribes that are uncertified and have unfunded Priority 1 and 2 problems in the AML inventory are eligible for Historic Coal funds. As a result, tonnage percentages are adjusted to exclude in eligible States and Tribes. Each State's individual calculated percentage is multiplied by the total historic coal funds available to calculate a potential distribution. The FY 2025 Historic Coal distribution in the last column is rounded to the nearest dollar for each State.

FY 2025 MINIMUM PROGRAM MAKE UP FUNDS DISTRIBUTION

Comments:

This page presents the Minimum Program Make Up funding distribution. The State and Tribal Share, Certified In Lieu, and Historic Coal distributions for each State and Tribe (calculated on pages 2 - 4) are added together to produce a preliminary total distribution. Only States and Tribes that are uncertified and have unfunded Priority 1 and 2 coal problems in the AML inventory are eligible for minimum program funding. The Minimum Program Need column shows the amount each State needs to bring total funding up to \$3,000,000 or the amount of the unfunded high priority coal problems in its inventory, whichever is lower. The FY 2025 Minimum Program Make Up distribution in the last column is rounded to the nearest dollar for each State.

Funding for Abandoned Mine Land (AML) grants come from coal receipts collected from December 1, 2023 through November 30, 2024 and deposited in the AML trust fund and also from general Treasury funds. These funds are distributed through a congressionally mandated formula under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). Reductions required under sequestration for Fiscal Year 2025 were calculated by the Office of Management and Budget in its Report to Congress on the Joint Committee Reductions for Fiscal Year 2025. The required reductions were effective on the date of the issuance of the Presidential sequestration order (pursuant to 2 USC 901a), which for Fiscal Year 2025 was March 28th, 2022.
