**Re: McKinley Mine Permit No. NM-0001K  
Permit Renewal Application**

Dear Mr. Mulinex and Ms. Luciani:

Pursuant to 30 CFR 774.15 (a), Chevron Mining Inc. (CMI) hereby submits an application (2026 Renewal Application) to renew the McKinley Mine's mining and reclamation Permit No. NM-0001K. A permit renewal application was submitted May 6, 2021 (2021 Renewal Application) but it is under an OSMRE administrative delay as discussed in OSMRE's correspondence dated September 3, 2021 (OSMRE September Letter). The OSMRE September letter also states that reclamation operations can continue under the existing permit; the mine has continued operating following that guidance. This new 2026 Renewal Application with current information supersedes the 2021 Renewal Application.

The permit term for the renewal would be for a five-year period that extends from September 7, 2026 through September 7, 2031. The new permit number will be NM-0001L.

There will be no change to the permit boundaries contained in NM-0001K. The renewal application contains general, legal, financial, and compliance updates, which includes the minimum information needed for a complete renewal-application in accordance with 30 CFR 774.15 (b), which includes:

1. A statement of the name and address of the permittee, the term of the renewal requested, the permit number, and a description of any changes to the prior permit renewal (see updated permit materials),
2. The required liability insurance policy,
3. The required performance bond, and
4. A copy of the proposed newspaper notice; proof of publication will be provided at the end of the public notice period.

The current performance bond documents are contained in Appendix 2.8-C of the existing approved NM-0001K application and are not duplicated in this submittal.

The renewal application will consist of the existing approved NM-0001K application updated with the enclosed permit materials. An electronic copy of the permit materials is provided with a list of contents and insertion instructions for OSMRE distribution. These same materials will be incorporated into the McKinley Mine's copy of NM-0001K and the copy that will be placed in the McKinley County courthouse.

If you have any questions regarding this submittal, please contact me at (575) 586-7639 or Frank Rivera at (505) 870-0941.

## **1.0 OVERVIEW**

Section 1.0 contains an overview and general information about this renewal application. The section is divided into the following:

- 1.1. INTRODUCTION**
- 1.2. RENEWAL REQUIREMENTS, SOCIOECONOMICS, AND NOISE AND ESTHETICS**
- 1.3. VERIFICATION OF APPLICATION**
- 1.4. LIFE OF MINE**
- 1.5. TECHNICAL CONSULTANTS**
- 1.6. SIGNS AND MARKERS**

## **1.1. INTRODUCTION**

---

### **1.1.1. PURPOSE OF APPLICATION**

Chevron Mining Inc. (CMI) hereby submits this application for renewal (2026 Renewal Application) of the McKinley Mine's Permanent Program Permit No. NM-0001K, an existing permit under 30 CFR 750.12. A permit renewal application was submitted May 6, 2021 (2021 Renewal Application), but it is under an OSMRE administrative delay as discussed in OSMRE's correspondence, dated September 3, 2021 (OSMRE Sept Letter). The OSMRE Sept letter also states that reclamation operations can continue under the existing permit; the mine has continued operating following that guidance. This new 2026 Renewal Application with current information supersedes the 2021 Renewal Application. The 2026 Renewal Application addresses the requirements for a permit renewal, as set forth in 30 CFR 774.15 ,and updates the information in the permit so that the permit-term can be extended to September 7, 2031. The application is not being submitted for any of the special categories of mining detailed in 30 CFR Part 785.

### **1.1.2. INFORMATION PROVIDED**

This application has been prepared as a stand-alone document; thus, each of the primary permanent program regulatory sections concerning permit applications has been addressed. Some portions of this application also include information for lands under the jurisdiction of the New Mexico Mining and Mineral Division (MMD). This additional information is being provided as a convenience because the McKinley Mine includes both OSMRE and MMD jurisdictional lands. This additional information will give a more complete overview of activities mine-wide and their influence on OSMRE jurisdictional lands.

## 1.2. RENEWAL REQUIREMENTS, SOCIOECONOMICS, AND NOISE AND ESTHETICS

## **SOCIOECONOMICS**

### **General Permit Application Information**

This section contains information relevant to 30 CFR 750.12 (d) (2) (i) regarding demographic and economic considerations. This section had been updated in prior permit terms with the conclusion that no additional socioeconomic impacts would occur as a result of mining since the mine had been operating since 1962. The information provided below serves as a general update to relevant figures as mining ended in 2009 with final sales in 2010, and the mining areas reclaimed.

### **Demographics and Economics**

The mine is located in McKinley County, New Mexico next to the Arizona state line. According to the 1990 census, 60,686 people lived in McKinley County; the 2025 data estimated 72,881 people. Per capita earnings for all McKinley County industries was \$7,470.00 (Winney, 1994); the most recent U.S. Census data estimated per capita income for 2020-2024 was \$20,856 (in 2024 dollars). The largest incorporated population center is Gallup, NM, which is located 25 miles southeast of the mine. The 1990 population of Gallup was 19,154 people (Winney, 1994); according to the 2024 U.S. Census the Gallup population was 21,902.

The McKinley Mine is nestled among three Navajo Nation Chapters which include the following chapter houses: Fort Defiance (population 6,187), Tsayatoh (population 1,433), and Twin Lakes (population 1,967) (Rodgers, 1993). The nearest Navajo Nation community is the Navajo Nation capital, Window Rock, Arizona (5 miles west of the mine). Window Rock is located in the Saint Michaels Chapter (population 5,580) (Rodgers, 1993); according to figures extrapolated from the 2010 census, the population was 5,643 (Navajo Division of Health and Navajo Epidemiology Center, 2013). Per capita income for the Navajo Nation was \$4,106 according to the 1990 census (Navajo Nation); 2010 per capita income was \$10,695 (Arizona Rural Poly Institute, Northern Arizona University, Undated); 2024 per capita income was \$18,024 (U.S.Census Bureau 2024).

The McKinley Mine no longer has the work force it once had when it was an operating mine. The mine no longer has onsite Chevron employees, but manages the closure of the McKinley Mine from their office at the CMI project site in Questa, NM. These employees have oversight of contractor activities, which include removal of remaining support structures (such as sediment ponds), maintenance, monitoring, compliance and permitting.

## **NOISE AND ESTHETICS**

### **Noise**

Since the McKinley Mine is closed; the noise associated with mining-related haul-truck traffic, loading operations, coal processing, railroad traffic, or blasting is no longer an issue.

### **Esthetics**

The esthetics of the mine have changed significantly since it was an active mine. The majority of the mine is now reclaimed, which includes the active mining areas and most of the roads. The reclaimed land is generally characterized by rolling hills interspersed with valleys, vegetated primarily with a diverse mix of mostly native grass, shrubs, and forbs. The reclaimed land has been blended into the undisturbed hills, valleys, and drainages.

The impacts during active mining were primarily mitigated by the location of the mine in a sparsely populated area, contemporaneous reclamation, and active management of the mining operations (e.g., dust control). Additional information on these matters regarding the active-mining phase can be found in portions of the Environmental Assessment (EA) related to noise and esthetics in Appendix 1.2-A.

### **1.3. VERIFICATION OF APPLICATION**

---

A notarized statement has been prepared by the responsible official of CMI verifying that the information in this permit renewal application is true and correct to the best of his knowledge and belief. The statement is located in Appendix 1.3-A.

## **1.4. LIFE OF MINE**

---

An overview of the areas previously mined during the life of the McKinley Mine is provided on Exhibit 1.4-1. Active mining was completed in 2009; subsequently, the exhibit no longer shows proposed mining areas.

All exhibits in this renewal application show the OSM permit boundary. The lease boundary embodies those lands on which CMI has surface and/or mineral rights. Land control rights are discussed in more detail in Section 2.4 and on Exhibits 2.4-1 and 2.4-2 of this Application. The permit boundary is inclusive of those lands within the lease boundary that are permitted for mining. MMD jurisdictional lands have been marked with the notation "MMD", or a similar identifier.

## **2.4. RIGHT-OF-ENTRY**

---

### **2.4.1. OVERVIEW**

This section provides information documenting CMI's right-to-enter and mine the lands within the McKinley Mine permit area. While CMI is no longer mining, this section provides the information for the right-to-enter when it did mine, and the right-to-enter to facilitate post mining activities. A detailed description of CMI's surface and mineral control is depicted on Exhibits 2.4-1 and 2.4-2. The exhibits also include information for lands under the jurisdiction of the New Mexico Mining and Minerals Division (MMD).

### **2.4.2. SURFACE AND MINERAL CONTROL**

#### **SECTIONS 5 & 33 - MINERALS**

Minerals underneath Sections 5 T16N-R20W, and 33 T17N-R20W are owned by the Peabody Natural Resources Company (PNRC). CMI mined the coal in these sections under a coal lease from PNRC (File # 601-001-AA). A copy of the lease is provided in Appendix 2.4-A.

#### **SECTIONS 5 & 33 - SURFACE**

The surface of Section 5, T16N-R20W and Section 33, T17N-R20W is owned by the Navajo Nation and leased to CMI (File # 601-025-AA). CMI was granted the right to disturb the surface to mine the coal via the lease agreement. A copy of this document of conveyance is provided in Appendix 2.4-A.

#### **NAVAJO RESERVATION LANDS - SURFACE AND MINERAL**

The surface and the minerals underneath the remainder of OSM jurisdictional lands are owned by the Navajo Nation and are leased to CMI (File #601-035-AA). CMI was granted the right to surface mine the coal on these lands per the lease. A copy of the lease is provided in Appendix 2.4-A.

## **2.5. AREAS DESIGNATED UNSUITABLE FOR MINING**

---

The permit area is not legally designated or pending under petition for designation as an area unsuitable for surface coal mining.

## **2.6. INSURANCE INFORMATION**

---

Appendix 2.6-A contains the current Certificate of Insurance showing CMI is insured to at least \$300,000 per occurrence and \$500,000 aggregate against bodily injury and property damage claims in accordance with 30 CFR 800.60. OSMRE will be notified in the event of substantive changes in the coverage, including termination or failure to renew. The insurance policy will be maintained in full force during the life of the permit or any renewal thereof, including completion of all reclamation operations.

## **2.7. PROOF OF PUBLICATION**

---

### **2.7.1. NEWSPAPER ADVERTISEMENT**

A copy of the proposed legal notice to be published for this permit renewal application has been provided in Appendix 2.7-A. After the last public notice has been published, a copy of the notice and an Affidavit of Publication will be filed with OSMRE and inserted into Appendix 2.7-A.

### **2.7.2. PUBLIC OFFICE LOCATION FOR FILING**

A copy of this renewal application will be filed at the following location:

McKinley County Courthouse  
207 West Hill Street  
Gallup, New Mexico 87301

## **2.8. PERFORMANCE BONDING**

---

### **2.8.1. OVERVIEW**
