

## AMDTreat 6.1 Install Instructions:

Download the file named AMDTreat\_Publish\_OneClick\_NO\_REY\_June09\_2026.zip to a location on your local drive. Please note that you may run into issues if you save the file to a location that has a long file path. It is recommended to create a new folder with a relatively short file path such as C:\AMDTreat6.1 as an example. Save the zip file to that location, then unzip the file. Find and run the file named Setup.exe

| <input type="checkbox"/> Name | Date modified     | Type                 | Size     |
|-------------------------------|-------------------|----------------------|----------|
| Application Files             | 6/10/2026 4:24 PM | File folder          |          |
| AMDTreat 6.1.application      | 6/10/2026 4:24 PM | Application Manif... | 2 KB     |
| AMDTreat 6.1.exe              | 6/10/2026 4:24 PM | Application          | 9,516 KB |
| <u>setup.exe</u>              | 6/10/2026 4:24 PM | Application          | 537 KB   |

The program should launch upon installation and can be run in the future by clicking the windows button and finding the app.
